# Welcome to our Products Catalogue

The "Diamond" brand was inaugurated on December 12th, 2012 when the Diamond Flour Factory started its production. Our factory was entirely new and of the latest technology. From early on, Diamond flour managed to get hold of a vast market share, so we decided to proceed and make the brand bigger. We decided to build the Diamond Pasta Factory, the blue-colored packed and high protein content pasta that has put Albania on the pasta-making and exporting countries map. Later on, as we became more cherished by the consumer, we decided to make our brand even bigger by adding new quality products such as: tomato sauce, rice, olive oil, corn oil, sugar, sunflower seed oil, and white beans. We are looking forward to one day growing our family of products and providing our customers with all the pantry foods needed, under the brand "Diamond"
